## Thermocouple pipe Clamp Style

- 1-2. Construction Style
- 10 = Pipe Clamp thermocouple
- 3. Calibration
- K = K Type T = T Type J = J
  Type
- 4. Lead Protection
- F = Fiberglass with stainless steel overbraid
- (0.65mm solid)
- G = Fiberglass with stainless steel overbraid
- (24 gauge stranded)
- P = PFA with stainless steel overbraid
- (24 gauge stranded )
- 5. Junction
- G = Grounded

- 6. Clamp Band Diameter (inches)
- A = 11/16 to  $1\frac{1}{4}$
- B = 1  $\frac{1}{4}$  to 2  $\frac{1}{4}$
- $C = 2 \frac{1}{4} \text{ to } 3 \frac{1}{4}$
- D =  $3 \frac{1}{4}$  to  $4 \frac{1}{4}$
- $E = 4 \frac{1}{4} \text{ to } 5 \frac{1}{4}$
- 7.8 .9. Lead Length (inches)
- Whole inches: 10 to 999
- 10. Terminations/Options
- A = Standard,
- B = spade lugs
- C = Miniature male Plug
- D = Standard male Plug
- 12345678910
- 10TGGA720A
